

Siddharth Nachane

EDUCATION

Thadomal Shahani Engineering College — B.E. in Information Technology.

MAY 2020 - PRESENT (CGPA: 9.01)

PROJECTS

GenMotion AI — NextJs, LLaMA, GIT COCO, MoviePy, Flask.

An AI powered text to video generator makes a short engaging video summary of a news article with image assets, narration & captioning.

Attire AI — Flutter, Stable Diffusion, LLaMA, VGGNet, Flask.

A conversational AI fashion outfit generator that leverages Gen AI technology to generate and virtually try-on personalized and on-trend outfits to users.

Bid Bazar — NextJs, MongoDB, Cloudinary, Node.JS, Socket.io

An online auction platform lets users bid on a vast range of products. Users can also post their own products and get price recommendations.

QAI — ReactJs, MongoDB, Node.JS, GPT 3.5.

A study tool that uses GPT3 to generate, solve and share question banks for Mumbai University exams based on a database of previous questions.

Power Up — ReactJs, MongoDB, Node.JS, Google Fit, GPT 3.5.

An all encompassing fitness app that integrates with Google Fit. It includes AI Chatbots, exercise guides, competitions & merchandise stores.

Recipefolio — ReactJs, ReplitDB, Flask.

A website that helps you cook delicious recipes based on what you have available at home.

Human Aid — Python, Tkinter, Selenium.

A set of accessibility tools to make it easier to operate a computer. Offers speech to text, Document OCR narration & Whatsapp message narration.

File Share — Python, ReplitDB, Flask.

A file hosting service that lets users quickly share files. Users can upload files using the website, Telegram bot or Whatsapp bot.
