

Siddharth Nachane

EDUCATION

Thadomal Shahani Engineering College — B.E. in Information Technology.

MAY 2020 - PRESENT (CGPA: 9.12)

PROJECTS

Attire AI — *NextJs, Stable Diffusion, LLaMA, VGGNet, Flask.*

A conversational AI fashion outfit generator that leverages Gen AI technology to generate personalized and on-trend outfits to users.

Bid Bazar — *NextJs, MongoDB, Cloudinary, Node.JS, Socket.io*

An online auction platform lets users bid on a vast range of products. Users can also post their own products and get price recommendations.

Coupon Vault — *NextJs, Tailwind, MongoDB, Node.JS.*

A SaaS tool that is a headless promotion engine that lets merchants generate dynamics and static coupons based on rules set by the merchant.

QAI — *ReactJs, MongoDB, Node.JS, GPT 3.5.*

A study tool that uses GPT3 to generate, solve and share question banks for Mumbai University exams based on a database of previous questions.

Power Up — *ReactJs, MongoDB, Node.JS, Google Fit, GPT 3.5.*

An all encompassing fitness app that integrates with Google Fit. It includes AI Chatbots, exercise guides, competitions & merchandise.

Recipefolio — *ReactJs, ReplitDB, Flask.*

A website that helps you cook delicious recipes based on what you have available at home.

Human Aid — *Python, Tkinter, Selenium.*

A set of accessibility tools to make it easier to operate a computer. Offers speech to text, Document OCR narration & Whatsapp message narration.

File Share — *Python, ReplitDB, Flask.*

A file hosting service that hosts files for up to 2 weeks and gives users direct download links for the files. Users can upload files using the website, Telegram bot or Whatsapp bot.
